

Outcomes and Impact from HRSA HIV/AIDS Special Projects of National Significance Funded Between 1991 and 2002

Follow-Up from Two to Nine Years
After the Funded Period:
Supplemental Information
Web Sites Included for Analysis

Overview of this Supplement

- This presentation includes supplemental technical information describing the methods and results of the study of long-term outcomes and impact from the HRSA HIV/AIDS Special Projects of National Significance funded between 1991 and 2002
- This section lists the web sites analyzed for this study

Description of Supplemental Web Site Coding

**Web Sites – Viewed in the Fall of 2003
Included as another data source to
describe continuing activities**

Web Site Content [1 of 2]

- Google searches were conducted to find SPNS grantee web sites or web sites that discuss SPNS funded project
- Automated coding was conducted on web site content using the specified NVIVO keyword strategies
- Web site materials were included in the study because they contain critical information about the long term outcomes from SPNS grantees

Web Site Content

- Content of website was added to the NVIVO database if it described any of the following
 - Description of the grantee agency
 - Description of services or models originally funded by the SPNS grant
 - Description of how services or models originally funded by the SPNS grant has evolved after SPNS funding
